## **Introduction**

This publication contains all documentation provided by the Nippon Fernist Club to British, American and Australian Fern Society members during the tour. The Nippon Fernist club has graciously allowed this document to be provided in electronic format.

I'd like to take this opportunity to thank all the people that made the tour the great success it was and would especially like to thank our Japanese fern guides for taking the time to develop this documentation and share their extensive knowledge with us.

Please note that the content within this document, including all text and pictures remains the property of the Nippon Fernist Club.
